TRADITIONAL HEALING PRACTICES ON O‘AHU

O‘AHU – As many visitors know, the island can be a source of profound relaxation and healing. An escape to the mountains and sea often provides visitors and locals alike with a sense of peace and a respite from our troubles, from the physical to psychological. But sometimes, what ails us requires just a bit more focused energy, and O‘ahu provides many healing practices that draw on native Hawaiian and other ancient traditions. Here are a few:

**Traditional Hawaiian Healing**

**James Kawainiu**
To help ease both physical and psychological ailments, James Kawainiu uses manalima lomilomi, a combination of several techniques, some of which he learned from Hawaiian lomilomi teachers and Maori healers. Manalima translates into power (mana) of the hands (lima) and lomilomi is the movement of energy through the physical body, manipulated through touch and prayer.

**Mala Healing Arts**
Chinese medical theory is based on the idea that life is maintained by a constant flow of energy (qi) and an interplay of the opposing energies of yin and yang in the body. Disease and pain arise when there is a lack of balance between yin or yang, or when there is a blockage in the flow of qi. Marie Cahoon of Mala Healing Arts helps to restore balance via acupuncture and other techniques.
